Two brackets are available for mounting the Alpine. The tall bracket is used for large flanges; the short bracket is used for smaller flanges. NOTICE The mounting surface must have sufficient framing or backing to support the brackets and allow the use of the screws. Aluminum or fiberglass skins are not adequate to support the installation.

What are Alpine SnowGuards? Snow guards are rooftop devices that allow snow and ice to drop off in small amounts or allow snow and ice to melt completely before falling to the ground. The installation of snow guards prevents the sudden release of snow and ice from a roof, which is known as a roof avalanche.
