Bricktop wrote:Boeing has morphed into a bean-counting and financial engineering company. It's not too surprising, given that the US in general turns out too many bean counters and financial engineers. The technical disciplines are pretty challenging, accounting and business studies are (in general) less so.

Boeing laid off too many engineers and technicians ...

It is written by an airline pilot with an aeronautical engineering degree who is an active captain/TRI on the Boeing 737NG. EASA, FAA, ICAO. This app contains all a pilot or dispatcher needs to know about aircraft performance for large civil twin jet aircraft in general and for the Boeing 737NG in special.
