Really an excellent book to have for an introduction to Control systems. Being mechanical engineering student this book helps a lot. I have books by Anandnatarajan as well as of M.Gopal, these are also good one. Book by Anandnatarajan has tons of solved problems. This book by Kumar has Matlab programs which are not found in above books I mentioned. All books I mentioned have their own speciality, I won't say they have any disadvantage as that won't fit properly because each book has got its ...
