### **Visual Basic 2010 How to Program: International Edition ...**

So I am working through Deitel's Visual C# 2008 on my own (at Chapter 5). Is it better to use OOP in the exercises even when I can create the entire app in Main() ? (My apologies if this is a stupid question.) · Even for simple problems, it's a good exercise to try and think of putting code into various little classes. Initially it may not be very OOP ...
