Infant development: Birth to 3 months - Mayo Clinic

Developmental milestones are things most children can do by a certain age. Children reach milestones in how they play, learn, speak, behave, and move (like crawling, walking, or jumping). In the first year, babies learn to focus their vision, reach out, explore, and learn about the things that are around them.

Choose a time for your observation when the baby is well-fed and all of his basic needs have been met. Attempting to observe a sleepy or hungry baby is a recipe for disaster. When you are sure the infant has been fed and is not sleepy, find a quiet spot on the floor to sit with the baby. Lie the baby down on his back on a soft blanket.
