### **How to Connect GReddy e-manage blue ~ Learn How To Tune ...**

Greddy E-manage Installation and Tuning Information Overview The Emanage has a lot of functionality considering it is still a piggyback type engine management system and not a full standalone. By itself, the emanage main unit operates much like the original style Apexi AFC. You will be able to tweak the airflow signal

### **Greddy E-manage - JDM Manuals**

The e-Manage system is a universal piggy-back type unit which taps into most Japanese factory ECU wiring, by utilizing the existing sensors. Basic functions will allow the user to slightly alter factory injector duty-cycle (+/- 20% at 5 preset RPM points) by intercepting and altering airflow or MAP sensor signals.

The Emanage Blue i am trying to connect is an Emanage Blue 2 unit. It uses a printer type USB cable on the Emanage Blue. I am not sure which part went wrong.I have try to look for another USB driver but i am also out of luck. I hope that anyone of you have face this kind of experience before and over come it could advice me to overcome my obstacle.

### **Emanage blue**

The GReddy e-manage Ultimate is as close to a stand-alone management system as you can get while maintaining the best features of a "piggy-back" engine management; an economical price, the usage of existing sensors, the ability to easily alter factory settings and not having to tune from scratch. But unlike the original e-manage, the Ultimate is more refined, requiring specific application ...

### **GReddy e-Manage**

TRUST /GREDDY E-MANAGE BLUE E-MANAGE. Every fuel injection car runs with an ecu to control every operation of the engine. This include controlling the duty cycle of the injector (how long the injector is on , means amount of fuel injected), ignition timing, camshaft profile, and few other. The ecu variable input such as rpm, manifold pressure or the mass air flow.
