The first thing you should do if you can't open your PAGES file is to take note of the operating system you're using. If you're on Windows, you probably don't have a program installed that can open the PAGES file, so double-clicking it likely won't get you far.

**What Is a PAGES File?**  
On the right, click the "Choose Commands From" drop-down menu and select the "All Commands" option. On the long list of commands on the left, scroll down and select the "Shrink One Page" command. Click the "Add" button to add it to the list of commands shown on the Quick Access Toolbar. Click "OK" when you're done.
