Letourneau cranes parts & services - allriggergroup.com
Letourneau was founded by R.G. Letourneau in 1929 as R.G. Letourneau Inc. The company has been sold and resold over the years, with the earthmoving products sold to Joy Global in 2011. Komatsu acquired Joy Global in 2016 and now manufactures the large wheel loaders for surface mining, providing the industry’s largest model sizes and payload capacities. Joy Global was renamed Komatsu Mining Corp.

Letourneau, Inc. | Construction Equipment
A Letourneau straight dozer is mounted to the Caterpillar D7 located in front of the Local 150 of the IUOE in Merrillville, IN. The bulldozer on this D7 is a straight blade and cannot be angled. The Letourneau designation for this type dozer is WEK7. The designation for an angle dozer mounted on a D7 was WCK7.

RG Letourneau in World War Two
Letourneau had spent the early 1950s perfecting a sort of diesel-electric drivetrain for multi-wheeled heavy-machinery. The system—somewhat similar in concept to the sort used on many locomotives—used a combustion engine to spin an electric generator.

Letourneau Technologies - Wikipedia

Marathon Letourneau Cranes Manual - asktechnologyguru.com
These 299 inventions included the bulldozer, scrapers of all sorts, dredgers, portable cranes, rollers, dump wagons, bridge spans, logging equipment, mobile sea platforms for oil exploration, the electric wheel and many others. Letourneau built 70% of the heavy earthmoving equipment used by the allies in World War II.

R.G. Letourneau Museum and Archives
Le Tourneau designed and built his first proper crane around 1933-1934 in direct response to a need in constructing his new manufacturing shop buildings. It was fabricated from box and channel section steel welded together (of course) and had a nominal capacity of around 10 tons at close radius.
