Making Chocolate: From Bean to Bar to S'more: A Cookbook ...

Raw cacao beans are encased by sweet fruit. Step One: Pick the cacao pod from the tree. Cacao trees are often grown in the shade of banana trees. They prefer the shade, and the bananas are fast producers, giving the farmer a steady (if small) income while waiting the three years for the cacao plants to mature.

How To Make Chocolate (From Bean To Bar) - Wild Heart Food

The cocoa nibs are ground with stone rollers until they become a paste known as cocoa mass or cocoa liquor. This pure, unrefined form of chocolate contains both cocoa solids (the chocolatey part!) and cocoa butter (the natural fat present in the bean). Cocoa butter can be extracted from the cocoa mass with a hydraulic press.

How Bean to Bar Chocolate Is Made - cocoarunners.com

Chocolate can be made with roasted or unroasted cacao beans. You can use the entire cacao bean including the husks or nibs only. You can make chocolate in 1 hour with a rough texture, or you can let chocolate process for 3 days for smooth texture. Vanilla is not necessary to make chocolate, I strongly recommend not using it.
