Manual Navipilot Ad Ii - widgets.uproxx.com

NAVIPILOT AD II / GM GM denotes that this version features inputs for both gyrocompass and magnetic compass heading information. This is today's most widely used configuration because the autopilot will operate on the heading information from the magnetic compass should failure of the gyrocompass occur.

Model Variations | Sperry Marine

The NAVIPILOT AD II has been conceived for those who do not consider the installation of a complete gyrocompass system to be cost effective, but still require a heading reference for distribution to peripheral equipment, for example, heading repeaters, electronic chart systems (ECDIS), radars, GPS and SATCOM.
