Online Library Metallic Smell Manual Guide

The treatment for a metallic smell in nose and/or other types of phantom odors will depend on the underlying cause of the condition. While this may seem like a relatively minor and harmless symptom, you should always consult your doctor if you start experiencing weird smells that cannot be physically accounted for within your environment.

What Causes Metallic Smell in Nose? - The Healthy Apron

The metallic scent shouldn't linger too long after your period is over. If your vagina has had contact with semen, this may change the pH level and cause a metallic smell. If you're experiencing...

7 Different Vaginal Smells and Why They Happen

Remove the 3 screws, pull the module off (the square tan colored part). With that off, you can see some connecting pins on the icemaker, They may need a cleanup before the new module goes on. Then reassemble. Take a look at the old module, you can see the small copper contacts that burn. This should take care of the smell.

My whirlpool Refrigerator has recently started emitting a ...

This is definitely a strong metallic smell, more so than a taste. While I was out walking, it was intermittent. Seems like if it were from Fukushima or a plant venting across the lake in Wisconsin, I would smell it everywhere. However, last year after Fukushima, I could smell it from town to town as I traveled for work.
