a blend of two or more kinds of matter, each of which retains its own identity and properties Physical Change a change in a substance that does not involve a change in the identity of the substance

Modern Chemistry - Chapter 1 - Matter & Change Flashcards ...

Chemistry is the study of matter—what it consists of, what its properties are, and how it changes. Being able to describe the ingredients in a cake and how they change when the cake is baked is called chemistry. Matter is anything that has mass and takes up space—that is, anything that is physically real.

1.1: What Is Chemistry? - Chemistry LibreTexts

Alchemy was what we called the study of chemistry from the 3rd century BC until 150 years ago. The word probably comes from the Greek chemeia, which meant to transmute or change matter. That's what alchemy, like modern chemistry, has always been about.

No. 1508: Alchemy
