Nikon recommend using Nikon branded Speedlights with Nikon digital cameras and does not undertake testing of flash units and accessories from other manufacturers. Nikon cameras comply with ISO10330 which is a international standard for cameras when used with flash units, failure to comply with this standard could cause damage to your camera and may void your Nikon warranty.

### Nikon Speedlight Compatibility Chart

When you put your speedlight into TTL mode and hold the camera shutter button halfway down, it puts out an almost unseen flash of light or “pre-flash”. Your camera’s metering system picks up the reading from the pre-flash and signals to the speedlight approximately how much power to put out to get a correct exposure.
