### Richard Posner - Wikipedia

Law and economics or economic analysis of law is the application of economic theory to the analysis of law that began mostly with scholars from the Chicago school of economics. Economic concepts are used to explain the effects of laws, to assess which legal rules are economically efficient, and to predict which legal rules will be promulgated. There are two major branches of law and economics. The first branch is based on the application of the methods and theories of neoclassical economics to t
