### Report Of The New Guinea

The Report: Papua New Guinea 2019. Efforts to improve public governance are gradually bolstering confidence in Papua New Guinea's economy, despite national performance being heavily dependent on the extractive industries. Backed by macroeconomic development plans, Prime Minister James Marape's administration is seeking to improve debt management, reduce foreign exchange imbalances, widen access to social services and provide greater employment opportunities.

German New Guinea consisted of the northeastern part of the island of New Guinea and several nearby island groups and was the first part of the German colonial empire. The mainland part of the territory, called Kaiser-Wilhelmsland, became a German protectorate in 1884. Other island groups were added subsequently. New Pomerania, the Bismarck Archipelago, and the northern Solomon Islands were declared a German protectorate in 1885, the Caroline Islands, Palau, and the Mariana Islands were bought f
