Strength & Durability - B&D's unique 'brake press' technology stamps a rigid structural pattern into each Roll-A-Door. The door curtain remains flat and looks good for the life of the product instead of developing unsightly sagging and bellying suffered by inferior doors. Smooth, Quiet Operation - Nylofelt running strips fitted on both sides of the Roll-A-Door delivers quiet operation day after day, year after year.

The B&D Roll-A-Door is a steel rolling door designed for durability and security that is available in two styles - the Squareline and Traditional Wideline. The Squareline door is made from pressed panels that reduce deflection in the door curtain, allowing for the increased longevity of the door. The Traditional Wideline is a deeper and rounder curtain shape, providing a stronger door with a more rigid steel curtain.

Garage Door Reverses Before Hitting the Floor . Two possible problems can lead to a garage door reversing before it even touches the floor: Garage door openers have an adjustment screw that controls the closing force—the pressure with which a door is allowed to descend before the motor switches off. When the door reverses before it even hits the floor, this is often because the close-force ...
