Press `i` to enter insert mode (you will see "-- INSERT --" at the bottom). Now you can edit the text in the file. When you're done editing press `Esc` to leave insert mode and return to command mode. Now type `:x` which is the command for exit and save. To quit without saving any changes use `:q!`. Vim is quite advanced, you might consider installing a simpler text based editor, e.g. `try nano`.
