Cultural customization is a fundamental step for reaching a global audience with your website, and should be completed as part of website translation and website localization. While many website owners treat this step as optional, it should be treated as integral. Website cultural customization can do a lot to validate your presence on the web with your target locale and ensure the effectiveness of your website to locale specific users.

Creating Culturally Customized Content for Website Translation

Absolutely. You have the option to customize your website based on your business needs. You can add site content wherever you'd like in a variety of sections; from multiple site pages, to scrollable sections that you can add to each of those pages, to a gallery of images, menus and price lists, and YouTube or Vimeo videos.
